

TMSGRN/CIRC/23-24/ 40

23<sup>rd</sup> August 2023

**Dear Parent**

**Greetings from The Millennium School, Greater Noida (West)!**

*“Trailblazing towards the Unseen: Chandrayaan 3 to complete its Odyssey to Explore the Moon Tonight!”*

The Chandrayaan-3 mission is a significant milestone for India's space program. It places India in the elite club of space exploring nations joining the ranks of the United States, Russia, and China, to become the fourth and only developing country in the world to achieve this feat. As compared to traditional space craft missions to the equatorial region, the lunar south pole presents a vastly different and more challenging terrain which we are achieving in the budget of just around Rs. 613 crore (\$74 million) lesser than the budget of a Hollywood movie on a space mission.

To ensure that no one misses out the adventure, **school will be hosting an online telecast of the soft landing of Chandrayaan 3** on the south pole of moon scheduled for 6:04 pm tonight. We request all our students and parents to join us using the following link as per the given schedule-

5:40 pm- Join the meeting using Microsoft Team link

5:45- 6:00 pm- Sharing of facts by students and Quiz on Indian space programme

6:00 pm onward- live witnessing of the landing while cheering for the achievement

**LINK TO JOIN THE MEETING- <https://shorturl.at/gxHM6>**

As we inch closer to this momentous occasion, we invite the entire TMS community to come together and be a witness to this historic event.

*Let's send the positive vibes to Chandrayaan 3's moon mission together!*

**Best regards,**

**Dr. Himani Tyagi**  
**Principal**
