DIGITAL BEHAVIOUR SURVEY

GRADES VI-VIII

Dear Parents,

Greetings from The Millennium School, Greater Noida (W)!

We're excited to introduce a ground breaking initiative in partnership with **Safeteens Online, a non-profit organization** dedicated to enhancing the online safety and security of our children. In today's digital age, our children are digital natives, and technology is an integral part of their lives. While this offers immense opportunities, it also comes with the responsibility of ensuring they navigate the online world safely.

To address this, **Safeteens Online** will conduct an initial survey aimed at creating a digital behaviour profile for our students. This survey will shed light on their online habits, challenges, and potential risks they might encounter in the digital realm.

The primary objectives of this survey are to:

1. Assess our students' digital behaviour comprehensively.
2. Identify specific areas where they may require guidance and support.
3. Develop effective intervention strategies to promote responsible online behaviour.

The survey will be followed by an informative session on cyber security, featuring experts who will provide valuable insights and tips on staying safe in the online environment. Our student council Cyber Captains will lead this initiative and take it forward.

Key Dates:

- **Survey Date: Monday, 9th October 2023**
- **Survey Link: <https://www.surveymonkey.com/r/TheMillenniumSchoolGreaterNoidaWest2023>**
- **Workshop Session on Cyber Security: 25th October 2023**

We want to emphasize that your child's participation in this initiative is **mandatory**, as it will significantly contribute to their digital literacy and online safety. Rest assured, the survey will be conducted **anonymously**, respecting your child's privacy.

We kindly request your support in ensuring that your child actively participates in the survey and attends the cyber security session. Equipping them with the knowledge and skills to navigate the digital world safely is a shared responsibility that we take very seriously.

Thank you for your unwavering commitment to your child's online safety and for being an active partner in this essential endeavour. Together, we can create a safer online environment for our children.

Warm regards,

Dr Himani Tyagi

Principal
