Advisory - Hand, Foot and Mouth Disease

Dear Parents

Greetings from The Millennium School, Greater Noida (W)!

This is to inform you that there is a sudden rise in Hand, Foot and Mouth Disease (HFMD) in and around us, which is a common, self-limiting but highly contagious viral disease that affects children of age less than 5 years.

As responsible adults we need to look out for the **following symptoms** in our children or any family member and immediately report them to family doctor or pediatrician and inform the school of the same.

- Painful red blisters in mouth
- Red rashes on their hands and feet
- Fever
- Sore throat
- Irritability
- Respiratory secretion and touch

Please follow the guidelines shared below:

1. Please ensure that children come to school wearing masks from **7th September 2022**.
2. Children must wash/ sanitize their hands regularly.
3. Do **NOT** send children to school even if they are exhibiting mild symptoms.

As a responsible school we are taking the necessary precautionary measures. Classroom and buses are being sanitized on a regular basis.

We appreciate your support in ensuring the health and well-being of our students.

Thank you

Best Regards

Dr Himani Tyagi
Principal
