Advisory- Respiratory Illnesses

Dear Parents

Greetings from The Millennium School, Greater Noida (W)!

In view of the sudden rise in seasonal respiratory infections in and around us, please be advised that **wearing a mask for all age groups is mandatory while on campus from tomorrow, the 10th August, 2022.**

As responsible adults we need to keep a look out for the **following symptoms** in our children or any family members and immediately report it to family doctor or pediatrician and inform the school of the same.

- Sore throat
- Running nose
- Cough
- Fever
- Headache
- Body ache
- Stomach infection (Ache, loose motion)
- **Any skin rash or any kind of prickly rash**

We further advise you to not send your child to school till the time, he/she is feeling completely fine to avoid spread of the infection.

Please follow the guidelines shared below:

1. All students are to wear masks while on campus, as a preventive measure as these symptoms, however mild, are very contagious and can spread through respiratory droplets or through close personal contact.
2. It is our moral responsibility not to send a sick child to school and further expose other children and be the cause of the spread of infection.

We appreciate your support in ensuring the health and well-being of our students.

Thank you

Best Regards

Dr Himani Tyagi
Principal
