

Dear Parents,

Greetings for the day!

We live in a culturally and linguistically diverse society. Learning a foreign language opens up new opportunities and helps children to become global citizens. Thus, The Millennium School, Gr. Noida (W) offers the choice of 2 Foreign Languages namely French and German along with Sanskrit from Grade IV onwards.

Given below is a brief information about the language taught at the school that may help you choose the most suitable language for your ward.

French – French is the second most widely learned language after English and the sixth most spoken language in the world. It is also the most taught language in India. French is a career asset in many sectors. This includes tourism and hospitality, export and import banking and finance, fashion, international business etc.

German – German is the official language of Germany, Austria, Switzerland and Luxembourg. It plays an important role as a foreign language in many countries particularly in central and Eastern Europe. It is one of the most popular foreign languages taught worldwide, hence German language as a career is full of endless opportunities.

Sanskrit- Sanskrit is the oldest living language. It has influenced many languages and most of the ancient literature is written in Sanskrit. All other languages in India have taken freely from Sanskrit heritage. There are number of colleges abroad that offer a course in Sanskrit.

Kindly email us your ward's option for the third language latest by Thursday, 31st March' 22

Regards

Madhu Tandon

Director Academics

My ward _____ of Class _____ would like to opt for _____ (French/German/ Sanskrit)

_____ (Name of the parent)
